

The KLIK LEDpod™ transforms handrail of nearly any diameter or alloy into a high performing luminaire. Unlike all other illuminated handrails, the KLIK LEDpod requires neither special fabrication nor special profiles.

Available in asymmetric or symmetric distributions, the KLIK LEDpod does not require rotation within the handrail thus eliminating unwanted and disturbing glare.

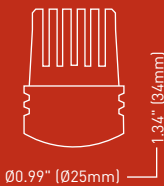

# KLIK LEDpod™

**LEDpod 40**

**LEDpod 40 Square**

**LEDpod 50**
